

Level limit measurement in spices

The challenge

Our customer requested reliable limit switches for his vessels with mixed spices. The switches need to control reliably the filling and emptying. The units need to be absolutely clean due to the dust. Above, the customer required maintenance-free units.

Our solution

The sliding paddle switch POFORNO PFD000 works independently from dust and liquid buildup. The installation and mounting is easy. Above, the units are maintenance-free.

Products

PFD 0004 Horizontal Tube Extension

Full, Demand, Empty Detector
Protection tube version

- Horizontal, vertical and diagonal installation
- Extremely robust due to protection tube, able to withstand heavy mechanical load
