

Level limit measurement in spices

The challenge

Our customer requested reliable limit switches for his vessels with mixed spices. The switches need to control reliably the filling and emptying. The units need to be absolutely dense due to the dust. Above, the customer required maintenance-free units.

Our solution

The rotating paddle switch ROTONIVO RN3000 works independently from dust and deposit build-up. The installation and mounting is easy. Above, the units are maintenance-free.

Products

RN 3004 Horizontal Tube Extension

Full, Demand, Empty Detector

Protection tube version

- Horizontal, vertical and diagonal installation.
- Extremely robust due to protection tube, able to withstand heavy mechanical load.
