

InnovaMass. Reinvented.

In 1997, Sierra was the first to introduce a combination volumetric vortex and multi-variable mass flow meter. Today, Sierra's completely redesigned InnovaMass® iSeries™ 240i/241i builds on two decades of success measuring five process variables for gas, liquid and steam with one connection.

Now, with the latest hyper-fast microprocessors, robust software applications, field diagnostic and adjustment capability, and a new state-of-the-art flow calibration facility, Sierra's vortex iSeries delivers precision, performance, and application flexibility never before possible.

It has Apps!

Experience innovative flow energy management tools driven by our new Raptor II OS that will empower your process and save you time and money

- FloPro™ vastly improves low flow measurement calculation
- Dial-A-Pipe™ allows you to quickly change pipe sizes in the field
- Dial-A-Fluid™ measures a variety of fluids whenever you choose
- qMix™ makes/measures custom gas mixtures
- Many more apps to come

Field Independence

With Sierra's advanced Smart Interface Portal (SIP), tap into your InnovaMass and bring up a variety of powerful software interfaces to enhance your meter's performance.

- Meter Tuning™ cancels environmental noise, greatly improving accuracy
- ValidCal™ Diagnostics closely monitors meter performance and validates output
- Make fast firmware upgrades in the field
- Expect a mobile app for your cell phone in 2016

World-Class Flow Calibration Facility

Every flow meter is only as good as its calibration. Each InnovaMass is calibrated by Sierra's new calibration facility in Monterey, California, to assure the best possible performance. Flow standards with accuracies better than 0.2% of reading are used to assure the highest accuracy possible.

Next Day Shipping

Go to Sierra's online store to custom configure and buy InnovaMass. We stock select models for next day shipment. Sierra is the only company in the industry where you can buy vortex meters factory direct. Visit sierrainstruments.com/shop
