

## INTELLIGENT (BARRIERABLE) LEVEL TRANSMITTERS

**Smart & Scalable**

# HYDROBAR T<sup>1</sup>

**HART** COMMUNICATIONS

- Now Programmable by HART or HART
- Output 4-20 mA and HART Protocol
- Accuracy 0.1%
- Strong Diaphragm
- Perfect Long Term Stability (<± 1% / 2 years)
- Temperature compensated
- Zero/Span adjustable
- Intrinsically Safe  
ATEX II 2G  
UL 913, FM 3000

The Hydrobar T<sup>1</sup> is a HART® (or HART) two-wire transmitter with a stainless steel (316L) or stainless steel (304) body. It includes a 200...1000 mm cable.

The Hydrobar T<sup>1</sup> is also available as a HART or HART transmitter.

The Hydrobar T<sup>1</sup> can also be supplied with stainless steel or strong aluminium. Stronger than many aluminium alloy level transmitters.
