

## The Centec Group

Centec is a privately owned group of companies with a focus on the growing industries, not only rapidly growing in the major world markets. We have a global team and strong division, with our own subsidiaries and a network of certified distributors. Our international customers include industrial, electrical and process automation engineering, with steel manufacturers and cement fabrication, as well as our own water related products. This international client network supports local facilities and local customers in diverse markets. The quality of our products is certified in the process performance test.

**Innovation. Dedication. Centec.**
