RHOTEC INNOVATION

In various countries, producers of alcohol are subject to taxation. They need to determine the alcohol content with extreme precision and with a measuring device that is accepted and certified by government authorities. RHOTEC fulfils both requirements and is ATEX compliant. Applicable for ethanol and ethanol based mixtures and in a temperature range from +5 to +40 °C, RHOTEC "AlcTax" meets the requirements of the PTB (Physikalisch Technische Bundesanstalt).

Innovation. Dedication. Centec.
