

Relative Turbidity Meter ITM-3

Application/Description

It can be used to measure turbidity in water.
Measurement range: 0.1 NTU up to 999 NTU.

Application/Range

Water, sea water, tap water, etc. (measuring range: 0.1 NTU up to 999 NTU)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)

Application/Measurement

It is a digital display meter. It can be used to measure turbidity in water.
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)

Power Supply

It can be used to measure turbidity in water.
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)

Power Supply

It can be used to measure turbidity in water.
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)

Measuring Principle and Measurement Accuracy

It is a digital display meter. It can be used to measure turbidity in water.
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
0.1 NTU up to 999 NTU (measuring range)
