

## DIFFERENTIAL PRESSURE TRANSMITTERS

**“All Stainless Steel”**

### Series DP-4000

▶ **STAINLESS STEEL HOUSING**

▶ **EASY ADJUSTABLE WITHOUT**

**TESTPRESSURE BY 1 BUTTON**

▶ **ACCURACY: 0.075%**

**OPTION: 0.065%**

▶ **TURN DOWN UP TO: 100:1**

▶ **GRAPHIC DISPLAY WITH  
BARGRAPH AND BACKLIGHT**

▶ **HART® PROTOCOL (HART® 7)**

▶ **DEVELOPMENT ACCORDING TO SIL2**

▶ **DIAPHRAGM SEALS AVAILABLE**

### Description

The DP-4000 is a high-performance differential pressure transmitter with a compact and robust **Stainless steel electronics housing**. The calibration / programming can be done very easy without testpressure by using the **Unique One Touch programming button** together with the **Graphic display with backlight**. The multilingual graphic display can indicate a number of chosen engineering units including the process temperature as well as the mA output in a bargraph. Damping times can be adjusted and a 4-20 mA current simulation can be performed. For flow measurement a square root function is built-in with adjustable cut off point. The output is 4-20 mA including HART® protocol (HART® 7.0). ATEX  II1G Ex ia IIC T6 Ga and IECEx approvals are available.

*Stainless steel electronics housing*

HART® is a registered trademark of the HART Communication Foundation.

*Manufactured by:*

**KLAY-INSTRUMENTS B.V.**

# Series DP-4000

## Specifications

Accuracy	: 0.075% (option: 0.065%)
Ranges	: 0-10 mbar to 0 – 20 bar
Turn down	: up to 100:1
<b>Adjustment</b>	<b>: by One pushbutton and local display, without test pressure</b>
Output	: 4-20 mA + HART® Protocol (version 5.0 and 7.0)
Supply	: 12 – 36 Vdc
<b>Electronics housing</b>	<b>: AISI 304 (Option: AISI 316)</b>
Protection	: IP66/67 (option IP68)
Process temperature	: -20°C to 80°C (option: 100°C)
Ambiant temperature	: -20°C to 70°C
Material wetted parts	: AISI 316L (option: Hastelloy C)
Material diaphragm	: AISI 316L (option: Hastelloy C, Tantalum or Gold plated)
Material sensor gasket	: Viton/FKM (standard), PTFE or NBR
Process connection	: 1/4 - 18 NPT female
Option	: ½" NPTf (by oval flanges)

## Adjustable points

P101	Zero adjustment (ZERO / 4 mA)
P102	Span adjustment (SPAN / 20 mA)
P103	Cancel mounting position effect
P104	Adjustment pressure unit
P105	Output 4-20 mA* or 20-4 mA
P106	Damping adjustment (0 - 25 sec.)
P107	Language: English*, Dutch, German, French, Russian or Polish
P108	Safety adjustment, Alarm and backlight
P109	Read out on display: Current, pressure unit, temp. or %.
P110	Current simulation (4-20 mA)
P111	Linearisation (various tank shapes)
P112	Burst mode (with option HART®)
P113	Instrument information
P114	Flow / Square root

\* = Factory setting

## Graphic display with bargraph and backlight

**Multilingual:** English, Dutch, German, French, Spanish, Russian and Polish

## Unique 'One Touch Programming Button'

The series DP-4000 is carried out with a **unique control button**.

This 'single button' can be used for all programming / calibration functions.

**With unique OneTouch Programming Button**

360° Revolving display

# Series DP-4000

Wetted parts AISI 316L  
Including vent valves.

## Separate electronics housing:

Series DP-4000 is also available in a separate version.

Type: **DP-4000-Cable(...m)-range-...**

Always specify the cable length, range etc.

## DP-Level Measurement in closed tanks:

For DP level measurement in closed pressurized tanks a DP-4000 with separate diaphragm seals is available.

**A tank linearization can be programmed very easy.**

The standard tank shapes are:

- Horizontal tank with flat end or parabolic end
- Vertical tank with a spherical bottom or conical bottom

*\*For level measurement in open (non-pressurized) tanks please use other*

*Klay Level transmitters, i.e. Series 8000-SAN (0.2%), series 2000-SAN (0.1%) or series 4000-SAN (0.075%).*

Flow measurement of liquids,  
gasses or steam with an  
Orifice plate or Pitot tube.  
 $\sqrt{\text{(SQUARE ROOT)}}$

DP-4000 with  
oval flanges  
(option)

## ACCESSORIES:

- Mounting bracket (AISI 304)
- Oval Flanges (AISI 316L) to get 1/2" NPTf process connection.
- Bolts / nuts in AISI 316 (Standard is AISI 304)
- 3 way manifold (AISI 316L) Type: M3G
- 5 way manifold (AISI 316L) Type: M5G
